

For Immediate Release:

## Stott Architecture Receives Sustainability Award

Stott Architecture, Southampton NY, has been recognized by “City and State Reports”, an email newsletter service covering business, politics and government in New York State.

The Award for “Corporate Social Responsibility Awards in Sustainability” was presented to Mr. Stott at a breakfast meeting held at the NYU Eisner and Lubin Auditorium at Washington Square Park last Thursday, July 28<sup>th</sup>.

Mr. Daniel A Zirilli, Senior Director, Climate Policy and Programs, NYC Office of the Mayor presented awards to 28 honorees, including company leaders from PepsiCo, Jet Blue, Citi Bank, Sustainable South Bronx and many other industry leaders throughout the State. Mr. Stott was the only architect honored this year.

Sustainable projects recognized by City State Reports by Stott Architecture include a proposed LEED Certified Ambulance Building for Southampton Village, a sustainable motel addition to the Hampton Maid Motel, now under construction, the Suffolk Theater, which included radiant floor heating and other sustainable technologies, and a number of LEED certified homes including his LEED Platinum HGA house and LEED Silver Sagaponack Modern Green Barn.
